Message: I just wanted to send you a quick message to let you know how much myself and the other nurses in our busy 35 bed Neonatal Intensive Care Unit love your product!!

We deal with some of the worst diaper rashes because of the medications we give the babies, and the compromised integrity of their fragile premature skin. Your product has done miracles on their little bottoms and we recommend that all the families purchase this product to keep at their baby's bedside.

The hospital does not provide us with anything to treat diaper rash so the nurses use their own money to purchase products to use on the babies. Yours is the favourite product among all the staff!!

Thank-you for making such a great product!!!
